Description NEW S1 Lotus Europa stub axles made in a high quality material superior to the originals and featuring our right hand / left hand thread hub nut. We offer these axles and hub nuts as a direct replacement for the originals. Made by PA Motorsport in superior materials and to a superior design, these shafts have been used on our own racing cars for years without problem. Prevents the old problem of hub nuts becoming loose causing wear and failure. In stock, please contact info@pamotorsport.com
